LOTS, FLOORS AND POOLS

Line painting

Clear, straight markings that show drivers and staff where to go.

Metro Vancouver and the Fraser Valley

Who it's for

Property managers, strata councils, warehouse operations managers and the people who run recreation centres.

What we do

Outdoor parking lots	Stall lines, numbers, fire lanes, curbs and NO PARKING stencils.
Indoor warehouse floors	Forklift lanes, walkways, crosswalks and hatched zones.
Parkades	Stall lines, numbers and no-parking hatching.
Steps and edges	A bright yellow stripe along the front edge of each step, indoors and out.
Pools	Lane lines, wall targets and depth markings in public pools.
Crosswalks, courts and playgrounds	Street and site crosswalks, game lines on outdoor courts and worn playground markings.

We can work overnight or on weekends around your traffic.

Parking and safety lines can be repainted regularly as part of a maintenance contract.

How we work

1 Site visit
We walk the area with you.

2 Written quote
Every line and stencil, in writing.

3 Scheduling
Nights, weekends or one section at a time.

4 Walk-through
Inspected by our team and you.

PARKING LOTS AND PARKADES

Parking lot line painting

Fresh lines, curbs and stencils, so your lot is easy to read again.

Metro Vancouver and the Fraser Valley

What we do

We refresh stall lines, numbers and accessible parking markings, and touch up fire lanes, loading zones and bollards.

Faded lines lead to crooked parking, blocked fire lanes and confused visitors.

For property managers, strata councils and business park owners.

What's included

- **Stall lines and numbers:** straight white or yellow lines and stencilled numbers.
- **Fire lanes and curbs:** faded curb paint, NO PARKING lettering and yellow hatching refreshed.
- **No-parking zones:** hatched yellow zones with stencilled NO PARKING lettering.
- **Accessible stalls:** accessible parking markings repainted.
- **EV stalls and logos:** EV charging graphics, logos and other stencils on stalls and walls.

How we do it

1. **Lot walk**
   We look at the lot together and mark up what needs repainting.
2. **Sweep**
   The pavement is swept and cleaned.
3. **Paint and stencil**
   Stall lines go down first, then numbers, stencils and hatched zones.
4. **Reopen**
   We go section by section, so most of the lot stays open.

Work only goes ahead once you've approved the written layout plan.

Recent jobs

Richmond, 2026	Tilt-up building: lines in two parking lots, with accessible stall symbols
Langley, 2023	Strata complex: 9 visitor parking lines and 6 speed bumps recoated
Delta, 2022	Industrial building: 240 ft by 10 ft hatched traffic area and a stop line

WAREHOUSES AND PLANTS

Warehouse safety lines

Clear floor lines keep forklifts and people apart.

Metro Vancouver and the Fraser Valley

What we do

We repaint forklift lanes and pedestrian crossings inside, then mark loading zones, dock stairs and ramp edges.

Every layout is set out to meet WorkSafeBC requirements.

We can work after hours or on weekends around your shipping schedule.

What's included

- **Forklift lanes and walkways:** separate lanes for forklifts and people.
- **Floor crosswalks:** marked crossings where walkways meet forklift traffic.
- **Hatched no-go zones:** yellow hatching at dock doors and loading zones.
- **Door swings:** yellow zones in front of doors that open outward.
- **Dock stairs and ramps:** painted safety yellow, so they stand out from the yard.

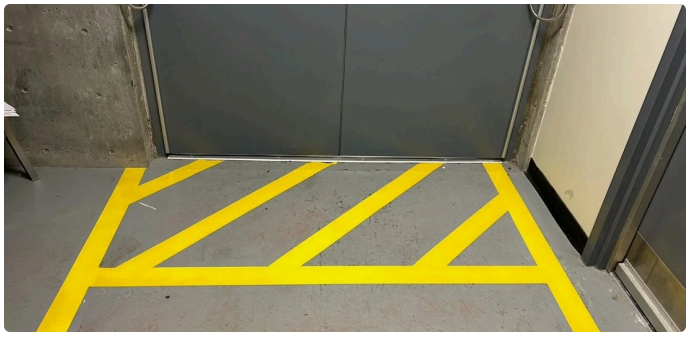

How we do it

1. **Walk-through**
   We go over traffic flow, racking and doors with you on the floor.
2. **Clean**
   The floor is cleaned and degreased where the lines will go.
3. **Set out**
   Lines are set out in chalk, then taped and checked with lasers and levels.
4. **Paint around shifts**
   We paint in sections, around your shifts and shipping.

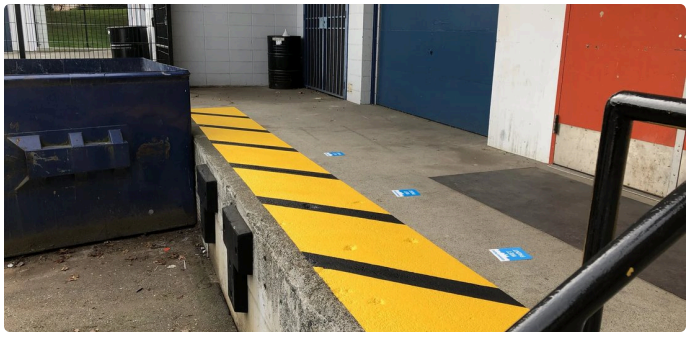

Work starts only after you approve the layout plan.

Recent jobs

Delta, 2026	Industrial building: 330 ft walkway and 2 crosswalks in safety yellow epoxy
Richmond, 2023	Industrial building: 110 ft warehouse aisle, 2 coats of safety yellow epoxy
Delta, 2020	Industrial building: steel stairs, ramp sides, rails and bollards in safety yellow

LOADING DOCKS, PARKADES AND PLANTS

Safety yellow and bollards

Bright yellow makes bollards and edges easy to see.

Metro Vancouver and the Fraser Valley

What we do

We remove loose paint, prime exposed steel and repaint bollards, guardrails and door-frame guards in safety yellow.

Faded bollards, railings and stair edges are easy to miss.

We work around your shipping hours.

What's included

- **Bollards and guardrails:** including door-frame guards that take hits from forklifts.
- **Loading docks and stairs:** dock edges, dock stairs and ramps.
- **Columns and lower steel:** parkade columns and warehouse steel at bumper height.
- **Stair nosings and steps:** step edges, so people see where each step ends.

How we do it

1. **Walk-through**
   We go through the site with you and mark what needs painting.
2. **Prep**
   Rust is cleaned back and primed, and old peeling paint comes off.
3. **Paint**
   High-visibility yellow goes on, in sections, so traffic keeps moving.
4. **Final inspection**
   Our team and your facility or safety manager inspect the finished work.

Steel is prepared and primed to MPI standards before the yellow goes on.

Recent jobs

Langley, 2026	Warehouse: six bollards primed and painted safety yellow
Richmond, 2025	Industrial buildings: five bollards refreshed in safety yellow
Surrey, 2017	Tilt-up warehouse: 10 bollards painted safety yellow, plus walls and doors
